## Overview

The SaaS Marketplace is a **one-stop platform** that allows users to discover, compare, and purchase software-as-a-service (SaaS) tools. The platform is designed to streamline the decision-making process by providing **detailed product insights, customer reviews, demo options, and flexible purchasing models.**

With an intuitive UI and robust search functionalities, the marketplace enhances the user experience by allowing easy navigation across various SaaS categories.

1. **Welcome Page**
- The **landing page** prominently displays the **company's logo** to establish brand identity.

2. **Authentication (Login & Signup Page)**
- Users are prompted to **enter their credentials** (username and password) to log in.
- New users have the option to **sign up,** ensuring seamless onboarding.
- The login page includes a **"Forgot Password?"** option for easy account recovery.
